

WE MADE SURE  
DYING DIDN'T STOP  
DUSTIN FROM LIVING.

*Long live Dustin. Long live hearts.*

Three years ago, Dustin Altom suffered cardiac arrest. He clinically died – no heartbeat, wasn't breathing and was not conscious. The EMS team was able to restart his heart and took him to Northeast Georgia Medical Center, where cardiologists performed other treatments to save his life.

HEART & VASCULAR SERVICES

24 CANCER  
PROGRAMS  
IN THE NATION  
AWARDED.  
ONLY ONE  
IN GEORGIA.

Northeast Georgia Medical Center's (NGMC) Cancer Services is the only program in Georgia to receive the 2018 Outstanding Achievement Award by the American College of Surgeons Commission on Cancer. As one of only 24 cancer programs in the nation to receive this award, NGMC offers cancer patients access to expert doctors, leading clinical trials and advanced treatments – right here at home.
