YOU MAY BE
h**HALL IN**
AGAINST COVID-19,
but what about the flu?

Due to the COVID-19 pandemic, it's more important than ever to protect ourselves and our loved ones from the flu. The flu vaccine is the most effective way to prevent the flu, and the CDC recommends everyone six months and older get a flu vaccine before the end of October. We are working with area partners to coordinate on-site flu shot clinics for organizations and businesses.

Visit wearehALLin.com to request a Flu Shot Clinic at your location.
