# Introduction and Mission

## Introduction

Partners in Education (PIE), created and coordinated by the Greater Hall Chamber of Commerce, is a joint effort with the Chamber of Commerce, Hall County and Gainesville City School Systems. Established in 1990, the program has supported the formation of over 350 business-education partnerships which serve to enrich the educational process and strengthen our schools. These partnerships foster closer links between schools and the business community and are essential in preparing a better educated workforce, thereby supporting economic development.

The program helps to bridge the gap between the community and its schools for the mutual benefit of students and the residents of Gainesville-Hall County. Business partners engaged in the program will gain firsthand experience along with many benefits the program offers. Successful collaboration and cultivated relationships will afford both partners many rewards and satisfaction if the right components are in place.

## Mission

To establish and foster a voluntary cooperative relationship between the school and industry through their mutual adoption of one another and to support and enrich the existence of both.

## What are Partners in Education?

From mentors and tutors, to attendance contests, rewards for high achievement to providing supplemental instruction and motivational recognition for student achievement, the impact of the partnerships and quality of involvement is exceptional.

PIE program supports quality education and promotes a better understanding among schools and businesses with an objective to assist all students in developing valuable skills that will prove useful for years to come.

- ❖ Partners and schools choose their level of involvement, which may include volunteering, in-kind contributions or financial assistance.
- ❖ A school and its partner design activities each year that are mutually beneficial. A partnership is not a one-way relationship; it takes both parties to develop a meaningful collaboration.
- ❖ Defining roles and responsibilities helps minimize problems that could materialize later.
- ❖ Determine resources and needs of both school and community partners.
- ❖ Each partnership is unique in its relationship with each school and is individually planned by the school and the partner.
- ❖ Partners are as diverse as the schools they champion.
- ❖ Whether you are a small business or a major corporation, our schools need you!
- ❖ Business partners should support the core mission of the school.

# Program Benefits

## The rewards and benefits are endless...

### To the Business and community:

- ❖ Your partnership and support will positively influence our community's future leaders .
- ❖ Employee morale will be uplifted when they see how they can make a difference in a life.
- ❖ Being recognized as a community-involved company adds value to your public relations efforts and reputation as a good corporate citizen.
- ❖ Improved education of future employees and consumers.
- ❖ Better prepare your future workforce.
- ❖ Expose students to different career options.
- ❖ The satisfaction of providing leadership and expertise to schools to enhance students' success.
- ❖ Influence students to become responsible citizens who significantly contribute to the economic, civic, and social environment of our community.
- ❖ Contribution in the expansion of programs geared to the local job market—and economic development.

### To the students and schools:

- ❖ Higher self-esteem.
- ❖ Opportunity to gain knowledge about the real world from mentors and adult community leaders.
- ❖ Awareness of careers and skills needed and required by future employers.
- ❖ Students are better prepared for higher education and/or the workforce.
- ❖ Business and technical expertise.
- ❖ Development of mutual understanding and respect for each other.
- ❖ Staff and student morale boosted by the business partner.
- ❖ Enriched curriculum.
- ❖ Association with successful role models and mentors from the community.
- ❖ Education in various workplace environments.

### **Making the Connection: Why High School Graduation and Work Readiness Matter...**

*The direct impact of non-graduates is felt through the loss of personal income and a region's lower per capita income. Other impacts are felt indirectly: higher crime rates, higher welfare expenses, increased crime rates of unemployment, and greater costs of healthcare for the poor ~~ Source: The Economics of Education, Georgia Partnership for Excellence In Education and the Georgia Chamber of Commerce-3rd edition.*

## Frequently Asked Questions

### **Who can participate in the PIE program?**

Businesses (small and large), civic groups, government agencies, churches, colleges and universities, and non-profit agencies.

### **Does a business/organization have to be located in Hall County to participate?**

No, as long as the business is partnering with a Hall County or Gainesville City School they can participate in the PIE program.

### **Is a Greater Hall Chamber membership needed to participate?**

No, but the Greater Hall Chamber welcomes all interested businesses and community organizations. However, we only promote chamber members in our publications and social media outlets.

### **Is there a minimum financial investment for partners?**

There is no cost associated with establishing a partnership. Financial and in-kind donations are made at the discretion of the community partner.

### **What are the requirements for becoming an official Partner in Education?**

Every PIE should complete a Partnership Agreement form with their school and commit to a minimum of one activity per quarter to their partner school. Quarterly interaction helps build a relationship and contribute to sustainability of the relationship.

### **Can business partners join more than one school in partnership?**

The Greater Hall Chamber of Commerce encourages new PIE to only partner with one school at a time. This allows a community partner the opportunity to establish a strong relationship with one school before acquiring a partnership with an additional school. It also prevents time and resources from being spread too thinly among several schools.

### **How long does a partnership last?**

Each agreement is for a period of one school year. The agreement should be evaluated at the end of the term and then reassessed before continuing into another year. To continue, both the school and business should be receiving mutual benefits from the partnership.

### **How do I get started in becoming a PIE?**

A school may initiate a partnership, or the business may contact the school to discuss their individual PIE policy and goals. Brainstorm with the PIE contact on how your organization can help with their goals and their immediate and long term needs. If the business and school believe the partnership is **mutually beneficial**, the agreement form should be signed by both parties and processed at the superintendents' office; the form is then sent to the Greater Hall Chamber of Commerce. All parties should keep a copy of the agreement. If you know who you want to partner with, reach out and schedule a meeting with the contact person. If you aren't sure who you want to partner with or who the contact is, please contact Lisa McCormack VP of Education, at [lmccormack@ghcc.com](mailto:lmccormack@ghcc.com).
