# BLUE RIDGE CONNECTOR

CONNECTING NORTH GEORGIA TO THE WORLD

3315 White Sulphur Road, Gainesville, Georgia 30501

## A VIBRANT INDUSTRIAL CORRIDOR

Set to open in 2026, the Blue Ridge Connector will serve an important region for the production of heavy equipment, food and forest products.

The 104-acre location was chosen based on market research and site selection criteria, which included connections to Norfolk Southern rail and proximity to important roadways like I-85, I-985, Hwy 365, Hwy 129 and Hwy 441.

## SERVICE & CONNECTIVITY

- Direct rail link between Northeast Georgia and the Port of Savannah, the #2 most connected port in the country with 37 direct container services.
- Served by Norfolk Southern.
- Offers direct access to I-985.
- Less than 20 miles to I-85.
- Serves the manufacturing and logistics corridor in Northeast Georgia with a regional population of over 2 million.

## CAPACITY

- Annual lift capacity of 200,000 containers.
- 18,000 feet of working track.

## EFFICIENCY

- Reduces congestion on Georgia highways by eliminating the 600-mile roundtrip by truck to and from the Port of Savannah.
- Reduces transportation costs for importers and exporters.
- Will serve existing port customers, and act as an economic development tool to draw new investment into the state.

**Got questions?** Chat live with a customer service representative at [gaports.com](https://gaports.com).

## SUSTAINABILITY

- Emissions decreased by 75% compared to over-the-road transport.
- Served by 14 hybrid-electric rubber-tired gantry cranes.
- RTG movement alarms use white noise that doesn't penetrate long distance, effectively reducing noise emissions.
- Special lighting fixtures that direct light downward will provide the dual benefits of reducing energy consumption and light pollution.
- Through engineering, design and operational procedures, truck traffic will be separated from local commuter traffic to further improve safety and offset concerns about encroachment on neighborhood roads.
